Home Exercise Program
for Fatty Liver Patients

Warm-up (5-10 minutes)

1. Marching in place or walking
5 minutes

2. Arm circles
- Hold your arms straight out to the sides.
- Make small circles with your hands for 5 reps.
- Gradually increase the size of the circles as you continue.

3. Leg swings
- Stand with your feet hip-width apart.
- Slowly lift one leg off the ground, keeping it straight.
- Hold for a few seconds, and then lower it back down.
- Repeat with the other leg.

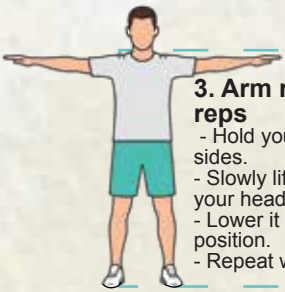

Monday, Wednesday, Friday (Upper Body and Cardio)

1. Brisk walking
20 minutes

2. Chair push-ups
3 sets of 10 reps
- Stand in front of a sturdy chair.
- Place your hands on the edge of the chair.
- Slowly lower your body toward the chair, keeping your elbows close to your body.
- Push back up to the starting position.

3. Arm raises: 3 sets of 10 reps
- Hold your arms straight out to the sides.
- Slowly lift one arm up and over your head.
- Lower it back down to the starting position.
- Repeat with the other arm.

4. Shoulder rolls: 3 sets of 10 reps
- Stand or sit with your arms at your sides.
- Roll your shoulders forward and up toward your ears.
- Then, roll them back and down.

Tue,Thur,Sat (Lower Body and Balance)

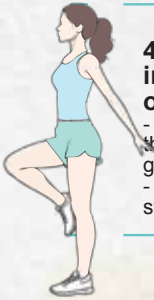

1. Brisk walking
20 minutes

2. Bodyweight squats: 3 sets of 10 reps
- Stand with your feet hip-width apart.
- Slowly lower your body down into a squat, keeping your back straight and your knees behind your toes.
- Push back up to the starting position.

3. Calf raises: 3 sets of 15 reps
- Stand on the edge of a stair or step with your heels hanging off the edge.
- Slowly raise up onto your tiptoes.
- Lower back down to the starting position.

4. Single-leg standing: 3 sets of 30-second hold (per leg)
- Stand on one leg, keeping the other foot lifted off the ground.
- Hold for 30 seconds, then switch legs.

Sunday (Rest Day) - Take a day off from exercising to rest and recover.

Tips:

- Start slowly and gradually increase the duration and intensity of exercises.
- Incorporate healthy eating habits and stress-reducing activities into your daily routine.
- Stay hydrated throughout your workout routine.
- Increase the number of reps or sets as you get stronger.

Note:

Consult with a healthcare professional if you experience any pain or discomfort during exercises.
